Reducing your filing footprint in 3 easy steps with lateral filing.

Contact Maxim on 1800 25 35 35 for a proposal.

Avery Lateral Filing saves up to 40% of the floor space of traditional filing. That's because files are stored laterally using vertical space, meaning you can store files at greater heights. Using a colour coding system, you can easily find your files in next to no time.

For an efficient filing system to suit your office space, simply choose from the options below. **It's as easy as 1-2-3.**

STEP 1:

Choose your cabinet package

No matter the size and shape of your office, you'll find an Avery Lateral Filing Cabinet package to suit your needs. The cabinets are available in a range of colours and styles depending on your office requirements. They also come with files, fasteners, labels and software to help you get started.

Lockable Tambour Cabinet Package

These lockable cabinets provide secure filing for your documents.

Open Bay Cabinet Package

With no doors, these cabinets allow quick and easy access to the files you and others use most frequently.

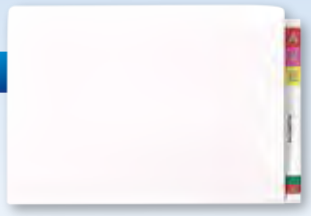
Drawer Cabinet

A traditional storage option to complement your Avery twin tab pockets/files.

STEP 2:

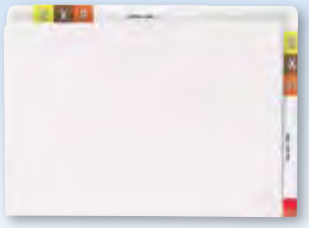
Lateral Files

Avery Lateral Files can be used in both new and existing cabinetry. These are three of the most common.



Standard Shelf Lateral Files

For use with standard shelves. For secure filing add a tubeclip fastener to these files.



Twin Tab Files

For use with standard shelves or drawer systems. For secure filing add a tubeclip fastener to these files.

Concertina Wallets (100mm expansion)

Ideal for storing documents that cannot be hole punched and bulky items.

STEP 3:

Software & Accessories

Set-up your new filing system in no time, with our purpose-built software and accessories.

Avery FilePro®

An easy-to-use tool that helps you fly through your filing. It has numerous pre-designed templates and colour options, allowing you to completely customise and personalise your filing labels.

Auto Filing Labels

These labels will have you filing like a pro in no time. Label files using just one label instead of individual tab labels. Must be used with Avery FilePro® software.

Manual Filing Labels

If you prefer to label each tab individually these are a great starter pack. These labels can be used without the aid of Avery FilePro® software.

QL-570	Labelling Machine Brother QL570	Ea	**$139.90**

Brother TZ Laminated Tapes for Labelling Machines

P-touch TZ tapes are the only tapes available that have a unique lamination, which makes the labels heat, cold, water, chemical and fade resistant (perfect for use outdoors, in cold environments and near food). The labels are extremely durable, have a professional finish and will outlast other labels. This makes them perfect for signs, shelf tags or name badges, organising files, computer disks and videos, power outlets, cables and switches – a quick and easy way to get organised! All tapes 8m long unless otherwise specified.
