Compactus Filing Systems

The smart hand-operated compacting storage system specifically designed for office deployment. Get the most out of your precious floor space while improving inventory and file access through better organisation. Compactus configurations offer high capacity storage at almost half the floor space of typical filing cabinets.

Welded pre-fabricated steel base modules mean that there's no need for floor preparation, and adjustable feet compensate for uneven floors. Welded steel box sections are supported by crowned load wheels fitted with ball bearings for ease of movement and horizontal lateral guide wheels prevent cabinets from tipping.

All Compactus units are fitted with a standard single-point, internal, key-activated locking mechanism fixing into the platform base, with an optional overhead locking system available for greater security.

Reducing your filing footprint in 3 easy steps with lateral filing. Contact Maxim on 1800 25 35 35 for a proposal.

Avery Lateral Filing saves up to 40% of the floor space of traditional filing. That's because files are stored laterally using vertical space, meaning you can store files at greater heights. Using a colour coding system, you can easily find your files in next to no time.

For an efficient filing system to suit your office space, simply choose from the options below. **It's as easy as 1-2-3.**

STEP 1:

Choose your cabinet package

No matter the size and shape of your office, you'll find an Avery Lateral Filing Cabinet package to suit your needs. The cabinets are available in a range of colours and styles depending on your office requirements. They also come with files, fasteners, labels and software to help you get started.

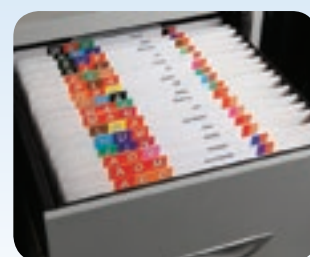

Lockable Tambour Cabinet Package

These lockable cabinets provide secure filing for your documents.

Open Bay Cabinet Package

With no doors, these cabinets allow quick and easy access to the files you and others use most frequently.

Drawer Cabinet

A traditional storage option to complement your Avery twin tab pockets/files.

STEP 2:

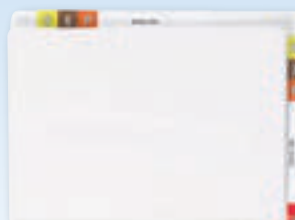

Lateral Files

Avery Lateral Files can be used in both new and existing cabinetry. These are three of the most common.

Standard Shelf Lateral Files

For use with standard shelves. For secure filing add a tubeclip fastener to these files.

Twin Tab Files

For use with standard shelves or drawer systems. For secure filing add a tubeclip fastener to these files.

Concertina Wallets (100mm expansion)

Ideal for storing documents that cannot be hole punched and bulky items.

STEP 3:

Software & Accessories

Set-up your new filing system in no time, with our purpose-built software and accessories.

Avery FilePro®

An easy-to-use tool that helps you fly through your filing. It has numerous pre-designed templates and colour options, allowing you to completely customise and personalise your filing labels.
